Polish Society of Coleman Dedicate Lodge Flag and Present Program of National Songs

Hall in East Coleman Scene of Interesting Ceremony in Which Mayor Pattinson Takes Part.

Monday, May 25, was an important day in the annals of the Polish Society of Brotherly Aid, whose hall in East Coleman was the scene of a very enjoyable gathering, the occasion being the dedication of the lodge flag.

Mr. John Sikora, secretary of the Federation of Polish Societies, with headquarters in Winnipeg, invited Mayor Pattinson to assist in the ceremony. Prior to the unfurling and dedication of the flag, addresses were made by Mayor Pattinson and Mr. Sikora, the latter speaking in English and Polish.

The Union Jack was also unfurled at the same time as the Polish flag. Lodge members in regalia, and boys and girls in Polish national costume, gave a picturesque setting to the ceremony, at which there were present members from other towns in the Pass, and as far east as Lethbridge.

Mr. Frank Tarabula, local secretary of the society, gave a brief historical review of the lodge in Coleman, it having been organized in 1916, and their fine hall was completed in 1927. There are about 80 Polish families in Coleman.

Mayor Pattinson expressed his pleasure at the opportunity of addressing the members, and referred to the friendly spirit of co-operation that existed between the Polish Society and other organizations, fraternal and civic, in town. He stated that many changes had taken place since he came to the Crow's Nest Pass 31 years ago, and throughout these years people

from European countries had played their part in its development, and had been accorded an even break with the rest of the people.

Mr. John Sikora spoke on the aims of the Polish people, on their contribution to their adopted land, Canada, of their cultural and spiritual influence, and of their desire to co-operate in every way as loyal citizens of their town and country. He also spoke at further length in (Continued on Back Page)

TOWN OF COLEMAN

Important! Building Permits

Owing to the privilege being so badly abused, the Town Council at a regular meeting held on May 26, unanimously passed a resolution demanding that any person making any alterations to their property or building new buildings, must first report same to James Ford, Secretary-Treasurer.

By order of
TOWN COUNCIL

Back To School

School will re-open on Monday, June 1 at the usual hour, after being closed for two weeks owing to a few cases of scarlet fever developing. All children having been inoculated, and no further cases being reported, the trustees decided to re-open.

NOTICE

TOWN OF COLEMAN

Applications will be received by the undersigned for the position of Inspector of Electrical Installations and Appliances. Applicants must be fully qualified, but applications will not be considered from any person engaged in or employed in electrical work in the Town of Coleman.—James Ford, Secretary-Treasurer.

Canadian Legion Carnival Will Attract Many Visitors on Saturday and Monday

Speed Limit in Town 20 Miles

Attention is called to excessive speed of some auto drivers, which is dangerous to others as well as themselves. 20 miles in the town limits is sufficiently fast for anyone, and under the town by-laws offenders may be prosecuted for driving beyond that speed.

It is time to call attention to this speed limit before any serious accidents happen.

Members Enthusiastic and Busily Making Preparations for Record Attendance at Big Community Event

Canadian Legion members turned in with enthusiasm this week erecting booths and laying the big dance floor in the Arena for the carnival which opens on Saturday evening. Prizes which excel in value and usefulness any yet offered at any local carnival will prove an attraction for the many ten cent pieces which will be placed on the boards for the lucky turns of the wheels.

Ten booths will be in operation, which will include the following: Lamp booth, blanket booth, doll booth, "house-housie," a race track, crown game, slum joint, milk bottles, hams and bacon, chinaware, hoop-la.

For the grand prizes, a Chesterfield suite and the choice of a radio set, electric washing machine or handsome kitchen range, a special booth will be erected, where those purchasing tickets may place their stubs in the revolving drum from which will be drawn each night of the carnival the lucky ticket.

Arcadians orchestra, specially augmented, will play for the jivey dance. Manager Walter Purvis and President Lombury have an enthusiastic band of workers behind them, and as the object of the carnival is to raise funds for the erection of a social and literary club under the direction of the Canadian Legion, it is anticipated that their efforts will meet with a widespread response. Coleman band have kindly consented to play a few selections each evening of the carnival. This first big event of the season will draw a big crowd from the Pass towns from Fernie east to Fincher Creek.

Mrs. Borden Delegate to Sweden

Mrs. R. P. Borden, division commissioner for Crow's Nest Pass area, has been appointed official delegate from Canada to the ninth world conference of the Girl Guides Association to be held in Sweden in June, it was announced at the annual conference of the Canadian council.

Mrs. Borden is at present in London, England.

BANKERS HOLD GOLF TOURNAMENT

Bankers believe in mixing up play with work, evidently, for over 50 per cent of the personnel of the Canadian Bank of Commerce branches in Alberta met at Red Deer for their annual tournament over the week-end. Over 100 players took part, among them being B. P. Alley, of Toronto, assistant general manager. W. L. Rippon represented Coleman branch.

BELLEVUE'S BIG DAY ATTRACTS MANY

The second annual Victoria Day celebration under United church auspices at Bellevue passed off very successfully. Bellevue brass band under Conductor Goodwin led off with the national anthem at the sports ground, following which Rev. Mr. Upton gave an address on the history of May Day. On the platform, prettily attired in chiffon dresses, were Miss Stella McDonald, May Queen, and her competitors, the Misses Harvey, Walney, Smith, Boyle, and Wells.

A chorus of school girls in May Day attire and a group of boys and girls in folk dance costume added to the gaiety of the stage. The dances, organized by Mrs. Upton, were heartily applauded, also appropriate songs, with Mrs. Upton as accompanist, were greatly enjoyed. Mr. Upton thanked the girls for their work in the ticket selling campaign, which far exceeded last year's effort.

The crowning of the Queen of May was performed by Mrs. J. H. Farmer, of Blairmore, who made an appropriate address.

The programme included songs by

the girls' chorus; dances by the school group, among which was "The Second Minuet"; tap dance by little Elaine Korman; Irish Jig by girls' group; flag drill by the boys, and grand finale consisting of the May Pole dance. Doreen Shevels presented carnations to the girls who sold tickets, and a bouquet of lilies to Mrs. Farmer.

Sports of various kinds followed, Bellevue team winning the basketball tournament. Miniature golf furnished amusement to many of the visitors.

In the evening an amateur contest was held.

DEATH OF MRS. PAWLUS

The funeral services of Caroline Pawlus, age 47 years, were held on Wednesday afternoon at Holy Ghost church. She had suffered for about two years, and death came quietly at her home on Blairmore road.

She had lived here for 27 years, and is survived by her husband and two daughters and one son. She originally came from Poland, and the family is quite well known among the older residents of Coleman.

Sympathy is extended them in their bereavement, and many

Footballers Open Season---Juniors Win From Lethbridge---Seniors Defeated by Blairmore---Play at Fernie on Sunday

Playing their first game of the season Coleman juniors emerged victorious over Lethbridge juniors in an evenly contested football game played at Coleman on Monday, May 25.

Coleman took the lead at the fifteen minute mark in the first half when Jackson scored from a free kick, the ball bouncing off Peterson's head into the net. A few minutes later Walker scored Coleman's second goal with a well placed drive which Shaw just failed to reach. Tilley of the Hustlers opened the scoring for the visitors when he beat Zezula with a free kick.

In the second half, Lethbridge used substitution, a new feature to Pass football. Eager to even the score, Lethbridge forced the

pace but the locals defended well. At the twenty minute mark Moores increased Coleman's lead when he headed beautifully to score their third goal. About five minutes from full time Jamison scored for Lethbridge to end the scoring. Final score Coleman 3, Lethbridge 2.

Lethbridge: Shaw, Stott, Peterson, Marshall, Tulloch, Jamison, Tilley, Sloan, Campbell, Halburton.

Subs: Stewart, Moodie, Murphy, Hostetter.

Coleman: Zezula, Houghton, Emmerson, Boulton, Jackson, D'Appollonia, Smith, Walker, Moores, Booth, Fisher.

Reserves: I. Smith, Phillips. Referee: P. Sharp.

Protection Of Wild Life

Not any too soon, an awakened interest in conservation of wild life and particularly game birds and animals, fur-bearing animals and fish is noted on both sides of the international boundary. This renaissance, if it can be called such, is most timely in view of the probable early extinction of many important and indeed valuable animals and birds if present wasteful methods are to be allowed to continue very much longer.

It is true that governments on both sides of the line have entered into agreements for the protection of some of the best known game birds and a good many regulations have been adopted by state and provincial governments for internal protection of a much wider range of both birds and animals of economic value to mankind, but that alone is not sufficient to ensure perpetuation of a great heritage.

True conservation cannot be attained until the great majority of the farmers in the country and sportsmen in the cities, towns and villages constitute themselves unofficial game guardians and use their utmost endeavors to protect harmless wild life both by example and precept.

Many thousands of men in the prairie provinces are already doing this, but maximum results cannot be achieved until practically everybody is imbued with the necessity of conserving one of the greatest gifts of Nature to humanity.

Both in the United States and Canada lovers of the great outdoors have become thoroughly alarmed at the decimation which has taken place in recent years in the flocks of game birds, both those that inhabit the uplands and those which migrate twice a year from one country to the other. A similar apprehension at the rapid diminution of herds and flocks of wild game animals is being frequently voiced, and not without justification. In magazines and newspaper articles both north and south of the 49th parallel.

In the United States, where misplaced governmental activities have resulted in large scale destruction of breeding grounds and natural sanctuaries under the name of reclamation, sportsmen and conservationists are mooting the advisability of linking up all societies interested in the preservation of wild life in protest to the Federal government and to demand more rigid regulations and restrictions in the interest of fur, feather and hide, not alone for economic reasons but also from the viewpoint of the necessity for preserving the aesthetic features of the countryside.

It is good to note that this awakening desire to conserve the game birds and animals is being extended to include the song birds, for their importance in the balance of Nature is becoming more and more recognized. There was a time when the destruction of song birds was passed over as a matter of little or no moment, except by a few bird lovers.

This apathy towards the wilful destruction of the feathered songsters of woodland and open prairie is fortunately passing and to-day they are generally regarded as friends of man which should be protected. The majority of them it is now more widely recognized are the foes of insect pests which, if left to multiply without let or hindrance, would in a very short space of time render the world uninhabitable.

To-day not only are people generally refraining from killing song birds and are restraining youth from giving vent to a lust to kill, but are taking more active steps to protect their feathered friends from such natural foes as the crow and the magpie.

In all three provinces there are clubs in operation, formed with the destruction of the crow as the objective of the membership. While differences of opinion as to the menace of the crow have been voiced from time to time, the weight of evidence in the indictment of this bird as an adversary of the insectivorous song birds is overwhelming. One witness for the prosecution, Dr. H. G. Carson of Saskatchewan told that 53 per cent of the crow nestlings examined by him on behalf of the Fish and Game League last year had been fed eggs or young birds taken from their nests and that examination of more than 300 crows shot during the season by members of the league showed that 28 per cent of the adult crows had eaten birds or eggs in the height of the nesting season.

In the light of this evidence the recently announced sweepstakes competition by the Saskatchewan Government aimed at the destruction of crows and magpies is regarded as a distinct forward movement in the program of preservation of songsters and game birds, and apart from the monetary reward offered for killing banded crows will doubtless be heralded with general approval by Nature lovers.

Crossing Wheat With Rye

Experiments in crossing Chinese wheat and rye to obtain a plant combining hardness of rye and milling qualities of wheat are being conducted by the University of Saskatchewan. Plants obtained from the crossing process are claimed to retain some of the qualities of rye. The cross between the two grains is easily made, but results are not always constant.

Building Larger Zeppelin

Work has begun at Friedrichshafen on another Zeppelin—bigger and faster than the Hindenburg, which flew across the English Channel with 50 passengers and a crew of 40. The new Zeppelin will be almost as long as the ocean liner Queen Mary, will carry 80 passengers, and will average nearly 100 m.p.h. on long journeys.

Red has been made the color of the German post service, all mail boxes, trucks, collecting vehicles, and buses used being painted cadmium red.

In Canada it is unlawful to advertise a "cure" for obesity.

Mining In Northern Area

Large Development Program For Northwest Territories This Year

As a result of the geological field program carried out by the Department of Mines last year, great activity in prospecting and mining development will be seen in the Northwest Territories during 1936. The Mining Records of the Department of the Interior at Cameron Bay, on Great Bear Lake, and Fort Smith, which lies just north of the Alberta-Northwest Territories boundary, report that while development work has continued on the older or main properties, preparations are being made by numerous interests for the carrying out of an extensive prospecting program this summer.

Prospecting activities will be chiefly centred in the Yellowknife area, also on the north and south shores of the east arm of Great Slave Lake including the islands. At least five major mining companies will have prospecting parties in this field and indications are that many individual parties will also prospect the area. As part of last year's geological field program 10,000 square miles were examined north of the northwest and east arms of Great Slave Lake, and the geological formation of approximately one-third of this area, which forms the southern part of the yellowknife Game Preserve, was found to be favourable prospecting ground for precious metals.

Prefers Life In Alberta

93-Year-Old Woman Does Not Like California

Although Mrs. H. M. Olsen is 93 years old, she would rather live on her wheat farm near High River in Alberta, operated by one of her sons than live in the fruit-growing lands of Arizona where she once resided, or with her two sons now living in California.

"Grandma" Olsen showed little patience for people living in fruit lands. "What is fruit?" she asked. "It comes and goes, it doesn't last. It is wheat that is lasting. Wheat—bread to feed the world. I have always been glad I came to Alberta. It grows wheat."

Mrs. Olsen left her native Denmark in 1858, crossed to Salt Lake City immediately after her arrival in New York, and soon after was married to Mr. Olsen. She came to Alberta in 1905.

"I walked every step of the 1,100 miles between Great Salt Lake and Salt Lake City behind a covered wagon," she declared.

Must Be Almost Perfect

Record Of American Cow Something To Marvel At

Honor is being paid to an American cow which has produced 38,606 pounds of milk, containing 1,402 pounds of butterfat in one year. Figures have been compiled to show that this is equal to the milk consumption of more than 200 people in one day every day of the year. enough milk and cream to make 88-890 ice cream cones, enough butter for eight families every day, provided they are not on relief rations.

Very interesting. This record will be cited as a mark for other cows to shoot at; the sort of cows that every dairy farmer should aspire to have in his herd. Nineteen tons of milk containing more than 3.6 per cent butterfat! We call it cow operation!—Stratford Beacon-Herald.

Many Tourists Expected

Peak Of 1929 Looked For By Travel Bureau

Tourist travel into Canada this year would reach the peak established in 1929, D. Leo Dolan, director of the Canadian Travel Bureau, predicted at Ottawa in an address at a banquet of the northern division of the Ancient Order of United Workmen. "To date we have received practically twice as many inquiries as we had at this time last year," he said. "Most of the inquiries are from United States citizens wishing to visit our country."

Maybe That Kind

An English motorist who owns one of those small cars which everybody makes jokes about was recounting an experience to a friend. "I had a bit of bad luck coming up from Brighton the other day," he said, "ran into a trap."

"Is that so?" said his friend.

"Any cheese in it?"

In 1931, there was one automobile to every 56 persons in the world.

In 1830, approximately 1,400 mail coaches left London daily.

Value Of Advertising

A Greater Force In Business To-Day Than Ever Before

Advertising to-day is a greater force in business than ever before. Those who have made a study of it, who have used it regularly, regard it as important as the product itself. The finest article will remain on a merchant's shelves unless potential buyers are told about it.

In a foreword to the 1936 edition of the McKim Directory of Canadian Publications, the agency whose name it bears makes some interesting observations on the value of advertising. These are the fruit of its long experience in this field of commercial activity. Commenting on the fact that an "easy-spending era" is not likely to return for many years, the foreword continues:

Actually, advertising to-day has a greater opportunity than it ever had. The consumer and emphasis on distribution, together with curtailment of unfair practices which served as short cuts to distribution—the growing insistence on standards in every class of merchandise—the public demand for evidence of value—the appearance of new products and new scientific advances and calling for exposition—the importance to many industries of a more sympathetic and understanding public—these are some phases of the opportunity that awaits advertising to-day.

But to influence effectively the consumer in 1936, advertising must be soundly conceived and seriously planned. People won't buy simply because the form of the advertising intrigues or entertains. There must be sincerity which produces conviction, as well as the emotional presentation that arouses desire.

Successful advertising is not a "now and then" affair. It has to be constant and it must be done well. It is one thing to create a demand and quite another to sustain that demand. This is where constancy in advertising pays large dividends. Finally, successful advertising requires that the purchaser be given his money's worth. Honesty, sincerity and persistency are three keys to the buyer's pocketbook.—Edmonton Journal.

May Visit Vimy

King Edward Expected To Attend Unveiling Of Canada's Memorial

The Havas News Agency said it was understood that King Edward would go to France July 26 to attend the unveiling at Vimy of the giant memorial to Canada's war dead.

The Agency said His Majesty would travel by aeroplane and that the occasion would be marked in Paris as a significant gesture of Anglo-French friendship.

King Edward is expected to land at Vimy from London on the morning of July 26 and to return home on the same day, according to these reports. President Albert Lebrun, Marshal Henri Petain, commander of France's Great War armies on the western front, and the new French premier will greet His Majesty, the Agency said.

The possibility the king would attend the unveiling of the Vimy Memorial, which July 26, was being discussed in several quarters in London, although no official announcement has yet been made.

The king's presence would give him an opportunity of greeting nearly 10,000 of his Canadian subjects, the majority of whom he served in France. It would also constitute his first journey abroad since his accession.

Tribute To Famous Poem

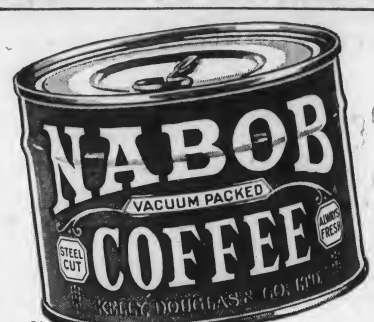

English Earl Showed His Appreciation Of Spenser's Work

When Spenser had completed his most famous poem, "Faerie Queene," he took it to the Earl of Southampton, great patron of the poets of that day. The Earl received the manuscript, read a few pages, and then said to the poet: "I will deliver £20 to be the waiting author."

Reading on, he cried in rapture, "Carry the man another £20."

Proceeding still further into the fascinating work, he ordered still another £20 be delivered.

Lightning recently split a two-story house in a building into two parts from roof to cellar on the Indian reservation at Caughnawaga, Que. Reporting the strange accident, Police Chief John Jocks said the damage was estimated at \$500 but no one was occupying the house at the time.

Roasted and Packaged by KELLY, DOUGLAS & CO. LTD., VANCOUVER, CANADA

New Lifeboat Invented

Can Be Sealed And Has Device For Renewing Air Supply

Victims of future marine catastrophes will find themselves comfortably saved within a sealed, non-sinkable lifeboat, if the invention of a reputable Catalan engineer proves practical.

The new lifeboat that cannot sink is capable of seating 40 to 50 persons. It can be launched from a sinking ship under all weather conditions and in less time than that required to remove the canvas from an ordinary lifeboat.

The inventor is Cosme Salomo Vila, the engineer who originated life-saving buoys for occupants of submarines. This invention was demonstrated in Madrid before a group of experts, including officials of the Spanish ministry of marine. It is said that naval experts consider adopting the submarine buoy as part of the general equipment of submarines.

Salomo Vila's latest invention, the non-sinkable lifeboat, is a launch 25 to 30 feet in length and capable of being closed so perfectly that neither air nor water can enter. The lifeboat is equipped with a motor and a special device for renewing the supply of fresh air.

The machinery for lowering the lifeboat after it has been occupied has been perfected by the same inventor. According to Salomo Vila and to witnesses who have seen tests made off the coast and near the town of Mataro, the lifeboat can be lowered in all kinds of weather and it is absolutely non-sinkable. These reports added that the interior of the vessel remained perfectly dry during violent storms and that the air was renewed without admitting any water.

SELECTED RECIPES

CHEESE BRANS

1 1/2 cups Quaker Natural Bran
1 cup Quaker Flour
1/2 teaspoon baking powder
1/2 teaspoon salt
6 tablespoons grated cheese
2 tablespoons shortening
1/2 cup boiling water
1 egg

Method: Mix dry ingredients thoroughly. Stir in grated cheese, melt shortening in the boiling water and add. Then add well-beaten egg. Roll very thin, using bran in place of flour. Sprinkle with salt, cut with cookie cutter. Bake in slow oven (not over 300 degrees). Delicious with a cup of tea or as an accompaniment for salad.

Commander Of East Indies

Vice-Admiral Sir Alexander Ramsay Receives Appointment

Vice-Admiral Sir Alexander Ramsay has been appointed commander-in-chief of the East Indies station of the royal navy.

Sir Alexander is the husband of Lady Patricia Ramsay, daughter of the Earl of Caithness and honorary colonel-in-chief of Princess Patricia's Canadian Light Infantry. While in Canada when her father was governor-general Lady Patricia was known as Princess Patricia, but on her marriage in 1919 she was authorized by royal warrant to relinquish the title of princess of Great Britain and Ireland.

Ancient English Home

Putting his domestic clock back 141 years, A. E. Richardson, professor of architecture at London University, is living in a Georgian house at Ash Hill with nothing more modern in it than in 1795.

Last year 832,015 books and newspapers and 8,000 pieces of Braille music were produced by the National Institute for the Blind in Britain.

Thieves Return Stolen Goods

To Keep Police Of Roumanian Town From Losing Jobs

The threat of the Roumanian government to fire the whole police force of the town of Buzau, Roumania, for incapacity broke the hearts of a dangerous gang of burglars. They sent by post to the chief of police a big parcel with stolen goods, accompanied by a letter stating that "We, the thieves of Buzau, do not want the poor police to lose their jobs and shall consequently transfer our activities to other parts of the country. Our principle is 'live and let live.'"

The complaint of a member of parliament, M. Mocanu, whose elegant fur coat was stolen in Buzau, caused the ministry of interior to announce that if the coat was not found within 24 hours, the whole police force, including the chief, would be dismissed. Next morning, a huge parcel containing among other things, the fur coat of the member of parliament arrived at police headquarters.

Takes Over New Post

Earl Of Willingdon Appointed Warden Of Cinque Ports

The Earl of Willingdon has been appointed Warden of Cinque Ports, a position of considerable dignity, carrying comfortable emoluments and residence at Dover Castle.

Lord Willingdon returned from India after five years as viceroy and it was announced the king had conferred a Marquessate of India.

As Warden of Cinque Ports, the former governor-general of Canada succeeds the late Marquess of Reading, himself a former viceroy of India.

The Cinque Ports—originally Hastings, Romney, Hythe, Dover and Sandwich but now including other "ancient towns" of the south coast of England—are a league enjoying a number of ancient privileges.

Expensive Fuel

Coal is worth almost its weight in gold at Akavik, N.W.T., and is almost as scarce. Most of this sub-Arctic output's coal supplies are brought in by airplane, and traders and trappers pay "sky-high" prices for it.

Seeing new uses for French resinous products, France is trying resin as a road surfacing material.

The first farm plows were made from crooked tree branches and worked entirely by man power.

Would Welcome An Investigation of Farm Implement Industry

Ottawa.—A tariff board investigation into the farm implement industry loomed when Hon. C. A. Dunning, finance minister, told the House of Commons he would welcome an application from the manufacturers.

Over protests from Toronto Conservatives, the house passed the implement schedules in the budget, reducing the tariff from 12½ to 7½ per cent.

Conservative Leader R. B. Bennett suggested the tariff board hearing along the same lines as the gasoline and automobile probes. He said he was unable to judge whether a tariff of 7½ per cent. was sufficient.

If the industry wanted an investigation all it had to do was apply, said Mr. Dunning. He would welcome one so the government would have facts and figures before its next session on which to review tariffs.

Mr. Bennett asked Mr. Dunning if a fairer attitude could not be adopted. If gasoline tariffs could be referred to the tariff board why could not implement tariffs? At least the government could await the result of the agriculture committee's study.

The committee, however, could get nowhere with the question because a committee was not the proper body. Farmers were now getting a fixed price of 87½ cents for wheat which was selling on the market at 77 cents. They would complain properly about unfairness if parliament suddenly abolished the fixed price.

Mr. Bennett said he had no opinion as to whether a 7½ per cent. duty was too high or too low. It should be left unchanged at least until all parties had been given a fair chance to be heard.

Mr. Dunning said in framing the budget the government had no tariff board report on implements as it had in the case of gasoline. It had to use the usual government machinery and fixed the duty at 7½ per cent., which in its judgment was proper.

This figure, he said, was not as low as the six per cent. duty in effect when the Liberals left office in 1930. John R. MacNicol (Conservative, Toronto-Danforth), predicted the tariff changes would throw thousands of men out of work, not only in the implement industry but in secondary plants all over the country.

M. J. Coldwell (C.C.F., Rosetown-Biggar), said the government was to be commended for reducing the implement duties. He would have liked the duties removed altogether and hoped the government would take appropriate action if the companies maintained high prices.

German Cruiser Leaves
Montreal.—The German cruiser Emden sailed out of her berth at Laurier Pier, and started down the St. Lawrence River, en route to Spain, on the last leg of a world cruise after a six-day stay in Montreal waters.

Relief Works In Quebec
Montreal.—A program of relief works will be substituted for cash relief in Quebec province effective June 1. Municipal Affairs Minister Bouchard announced. "Jobs will be absorbed as relief projects get underway."

Britain And France Consult Over Legation Guards In Addis Ababa

London.—An authoritative source said the British and French governments have been in consultation following Italian "hints" that their legation guards in Addis Ababa should be withdrawn. The two governments, it was said, are seeking to determine what course they should pursue.

The impression was gained that the Italians considered themselves in control of the situation in the Ethiopian capital and able to maintain safety for foreigners. Legation guards were considered superfluous.

The British and French have been studying whether the conditions in Addis Ababa can be considered safe. The British have made it clear that, even should they withdraw their legation, they would consider the step to be taken without political implications as regards the recognition of Italian sovereignty over Ethiopia.

Meanwhile, the British have ordered searching inquiries into the mysterious disappearance of L. J. Bonger, a nursing sister attached to the British ambulance unit in Ethiopia.

France refused to withdraw her sturdy colonial troops from Dire-dawa, key point on the Italian-occupied Franco-Ethiopian railroad.

Official French sources said the 150 colonials would continue to guard the Dire-dawa shops on the French-owned railroad, despite a request from Italy that they withdraw.

Railroad officials also declined an Italian request that they permit the shipment of 80 tons of provisions from Djibouti, French Somaliland, to the Fascist troops in Addis Ababa.

The request was turned down on the ground the road's war-time neutrality still is in force.

Union Proposal

U.S. Representative Suggests Union Between Canada And States

Washington. A union between the United States and Canada was proposed by Representative Sirovich (D., N.Y.), in a resolution providing for a joint senate and house of representatives committee of 10 to hold hearings on the plan with a similar Canadian group.

Sirovich contended both countries would derive great benefits from the union, naming among others solution of the unemployment problem, mutual use of ports and highways, elimination of tariffs, availability of United States capital for Canadian development, and greater strength in defence against any common enemy.

The committee Sirovich proposed would seek to determine the wisdom of the union, under which Newfoundland would enter the union under the same status as the States and Canada and Newfoundland citizens would become "American citizens with all the privileges of citizens of the United States of America."

Sirovich said the two countries together "would become the greatest English speaking nation in the world, covering the greatest amount of contiguous territory, with vast areas waiting for development." His resolution would authorize \$25,000 for the congressional committee.

He said that in any dealings with Canada, her dominion status must be borne in mind, but explained that the 1931 statute of Westminster provided "that the parliament of a dominion has full power to make laws having extra-territorial operation."

Cut Bank Interest Rates

Canadian Bankers' Association Announces Change Effective June 1

Toronto.—S. H. Logan, general manager of the Canadian Bank of Commerce and president of the Canadian Bankers' Association, has announced on behalf of the association a reduction of one-half of one per cent. in the rate of interest paid by chartered banks on savings deposits and deposit receipts. The change, effective June 1, reduces the rate from two to 1½ per cent. The statement follows:

The chartered banks announce that owing to the present low interest yields on Dominion treasury bills and other government securities, to the continued lack of demand for commercial loans, and to the increasing burden of taxation, a reduction of one-half of one per cent. is necessary in the rate of interest paid on savings deposits and deposit receipts, and that the change will become effective June 1 next.

Warlike Spirit

Will Intensify Moves To Make Italy Self-Sufficient

Rome.—The directorate of the Fascist party decided to "intensify" moves to make Italy self-sufficient through "permanent and irrevocable" exclusion of products from countries which participated in League of Nations sanctions, but the moves were not defined.

The directorate also ordered all able-bodied Fascists between 21 and 35 years of age to submit requests to enroll in the Blackshirt militia to demonstrate their "solidarity with the party's warlike spirit."

DID THE FAMOUS BOX REVEAL SECRETS?

The alleged leakage of Budget information, which has plunged British political circles into an uproar, may mean the resignation of "Jim" Thomas, famous National Labor leader. As a result of the alleged leakage, Thomas' son and a great friend are alleged to have made a large profit at the expense of Lloyd. At the left is Neville Chamberlain, British Chancellor of the Exchequer, leaving his home to walk to the House of Commons. In the famous dispatch case was the budget, information about which, according to Mr. Chamberlain, has "never leaked out." At the right is Sir Thomas, whose political future has suffered a severe jolt.

SEEKS LEADERSHIP

Col. George A. Drew, K.C., former Ontario Securities Commissioner, who has announced his candidature for the Ontario Conservative Party leadership.

Illicit Drug Traffic

League Is Advised That Japan Is Shipping Drugs To Canada And U.S.

Geneva.—Morphine, heroin and cocaine manufactured "by permission" of the Japanese ministry of interior are being offered in unlimited quantities to dope rings in the United States and Canada by Japanese manufacturers, the League of Nations advisory committee on traffic in opium was informed.

Reports from the United States and Canadian governments prove the existence in those countries of organized rings importing narcotics from Japan, the committee was told. The reports included the name and address of the principal Japanese source of supply and correspondence in which the Japanese merchant allegedly informed his American and Canadian customers how to smuggle the narcotics into their countries.

The Tokyo government has been supplied with complete details of the illicit traffic, the reports said.

The Canadian government report indicated the quantities of illicit narcotics seized in Canada during 1935 were slightly less than in the previous years. A total of 163 persons were convicted on narcotic charges last year compared to 226 in 1934, the report said. Of the persons convicted, 99 were deported as undesirable aliens after serving prison sentences.

Canada's Naval Defence

Coastlines Should Be Protected Opinion Of Navy League Official

Toronto.—Public opinion in Canada should be aroused to what he called the necessity of protecting coastlines and focal points of trade routes, John Goodwin, of Welland, president of the Ontario division of the Navy League of Canada, told the annual meeting of the organization.

"The manner in which the problem of naval defence is ignored generally by the people of Canada is amazing in the extreme," he said in annual report.

"Canada must surely take stock of the rising ambition of several of the struggling peoples in certain exceedingly congested countries of the world."

Preparations For War On Every Continent League of Nations Told

Reinforce Garrison

British Troops Are Sent To Palestine To Preserve Order

Jerusalem.—A battalion of British troops and an artillery battery were en route from Cairo, Egypt, to Palestine, where three British soldiers and two Jews were reported wounded in a shooting affray.

The British troops will reinforce the present Palestine garrison of two battalions and a company of light tanks. The Jewish Telegraphic Agency said their arrival would bring the military force in Palestine to 3,500—almost double the normal number.

This agency stated all three British soldiers hurt when Arabs ambushed a Jewish bus and four private cars on the Jerusalem-Jaffa road, were seriously injured, while one of the Jews suffered major wounds. Troops scouted hills and villages in the vicinity for the assailants.

The Jewish Telegraphic Agency reported it had reliable information that Arabs were preparing for more important demonstrations.

An Arab general strike which began April 19 in protest against Jewish immigration and sale of land to Jews was reported in some quarters to be collapsing.

Two Arabs were charged with murder in connection with the shooting of three Jews in front of a motion picture house.

An Arab was killed, the Falcor Agency reported, by a British policeman here during a search of pedestrians for weapons.

Death Penalty For Smugglers

Nanking.—Drastic regulations in an attempt to curb large-scale smuggling into North China, twice subject of protests from the Chinese government to Japan have been announced.

The measure provides the death penalty for six classes of violators.

Baldwin Warns Italy Against Interference In Egypt or Palestine

London.—The House of Commons turned to foreign affairs again, Prime Minister Baldwin warning Italy that any interference on its part in Egypt and Palestine "will be considered as an unfriendly act and treated accordingly."

Sir Thomas Inskip, minister for defence co-ordination, outlined the steps being taken by the government to prepare the war industries for any emergency, while Winston Churchill made his usual powerful contribution to the debate.

A Liberal motion to reduce the appropriation for the defence co-ordination ministry was defeated, 207 to 113.

"Under no circumstances," the prime minister declared, "will interference on Italy's part with the existing regimes in Egypt and Palestine be permitted. His Majesty's government have made it clear in unmistakable terms that they would regard as an unfriendly act any attempt at interference in the affairs of the Territory of Egypt, as an act to be repelled by all the means at their command."

Mr. Baldwin said the government, in consultation with Egypt, was considering the defence of the Suez canal "in view of the changed conditions caused by developments in the air."

"Preliminary conversations are at present being held in Cairo with a view to negotiation of a treaty of alliance between this country and Egypt, and questions concerned with the protection of the canal are being taken into account," the prime minister said.

Churchill warned that "all Europe is rearming and preparing its whole industry for war."

At the other end of the world, he said, "Japan is arming and is in the highest state of national exultation. All the old perils of a year ago are presented in aggravated form."

"The only new and prime factor is the great antagonism 'that has grown up between us and Italy, and where will the others be if you are late? What will be the strength of the German army or air force in 1936 and 1939, for broadly speaking,

Geneva.—Preparations for war "in every continent" and "on the largest scale are being pushed with feverish energy under the spur of panic," Harold Butler, director of the international labor office, said here.

His report will be submitted to the international labor conference, opening its 20th session June 4. Delegates from more than 60 countries, including Canada, will attend.

The Dominion will be represented by Dr. W. A. Riddell, Canadian advisory officer at Geneva. Gerald Brown, assistant deputy minister of labor, and Edouard St. Perre, M.P., "Industrial and agricultural measures are being adopted," said Butler, "which aim at insuring the largest attainable degree of national self-sufficiency in foodstuffs, raw materials and productive capacity in the event of war."

"Economic recovery is an impossible dream until the fear of another and more catastrophic collapse of the international political system has been dispelled."

"Europe once more stands at a turning point of its fate. The same may be true of Asia."

Reviewing social and economic conditions of the past year, Butler said it "furnishes more food for doubts and queries than for confident interpretation."

Empire Migration

Plans For Settlement Of British Families In Manitoba

Winnipeg.—Representatives of the Empire Migration Settlement group have asked the Manitoba government for an appointment to discuss settlement plans it was announced at Manitoba government offices.

Word from London said the group were informed the Manitoba legislative supports plans for settlement of British families here. P. O. Schonegger, chairman of the group, is on his way to Manitoba in connection with the scheme.

The effective result of your work only matures in the third year? "The British public has no idea of the efficiency of German war production, of its enormous skill, nor with what marvellous smoothness it could be made to pour out an almost limitless flow of the most horrible weapons of human destruction ever placed in the unworthy hands of men."

He charged the government had made a serious organization blunder in linking the functions of the head of the supply board with "the co-ordination of strategic thought. For example, he said Sir Thomas Inskip would have to deal with problems like the command of the British command of the Mediterranean."

In the now changed diplomatic conditions, Churchill went on, there was also the tremendous question of the military value of Russia and whether Britain was endangered from the air not only by bombs but by substantial landing forces by air in parts of the country where nobody was armed and trained. In this way important points could be seized.

Sir Thomas Inskip, he continued, was responsible for seeing the country had enough cobalt and chromium and nickel, and a hundred other vital matters.

"In the meantime everything is worse from the viewpoint of peace and safety than a year ago. The country will have to pass through a long valley of unprotectedness and in the period events in Europe may reach a climax."

He advocated the establishment of a ministry of munitions with the assistance of a "dozen of the most active young businessmen in the country."

Sir Thomas Inskip said the government was subsidizing extensions of private automobile factories to speed up plane production for the Royal Air Force.

"If a storm should beat over our heads we are unlikely to have a long time to expand our production," said Sir Thomas in introducing estimates for his ministry. It was his first long speech before the commons since assuming the new cabinet position.

NOTES AND COMMENTS

WITH plenty of talk about surfacing highways from the International boundary to connect the national parks in Alberta, too little thought is being given to the piece of highway that concerns in a very vital way the people of the Crows Nest Pass. First things demand that the highway between Bellevue and Coleman should be among the first pieces to be surfaced, for it is doubtful if there is another piece of highway in the province that is furnishing so much revenue on a mileage basis. This is a 12 months highway that is used primarily for business between the towns of the Pass, and in addition all inter-provincial traffic, tourists included, is carried on this highway. Combined effort by the towns interested should have some influence with the highway department at Edmonton. More shouting about our own needs is needed to impress others with the necessity of our claim. Business comes before pleasure, and business alone demands action on this section of highway.

THOUGH Coleman has as its inhabitants people of many diverse nationalities, sufficient to form a miniature "League of Nations," it is significant that all live in perfect harmony. There are British, Polish, Russian, Italian, Slovaks, Belgians, Finns, and maybe others too numerous to mention, forming a community of over 3,000 people, yet racial controversy never arises, and the majority are interested in community welfare and progress. A very interesting gathering was that of Monday, when the Polish people invited a number of townspeople to be their guests. Coleman is a melting pot in miniature. It affords a lesson in assimilation of immigrant population. If neighboring nations in Europe could live as peaceably and fearlessly as Coleman's various peoples, there would be little war talk.

SUMMER appeared to burst forth in full glory of sunshine and color for the week-end holiday. No place in Canada appears so entrancing, under favorable weather conditions, as the mountain areas of Alberta and British Columbia. High above sea level, humidity is almost an unknown quantity, so that even the hottest days are not accompanied by the discomfort experienced at lower altitudes. No matter if you travel to the seashore or to the great open spaces of the prairie provinces of Manitoba and Saskatchewan, you always feel that the mountains possess a welcoming atmosphere on your return. Winter does not seem so severe either, as the hardy pine and fir trees withstand nature's icy blasts and bravely maintain their color. You can enjoy Nature's treasures from your own back garden without paying hundreds of dollars to come from the big cities to enjoy them.

THIS WEEK the famous Dionne quintuplets were shown on the screen in "The Country Doctor." The best feature of the film was the showing of the "quints" in their nursery, which is mainly what really interested most people. The story built around them holds no special appeal, except to emphasize the rude conditions under which Dr. Dafeo must have labored and his wisdom in applying his knowledge to bring them safely into the world. It was generally regretted that Dr. Allan Dafeo was not shown, for people were equally as curious to see him as the babies.

TALKING of pictures, isn't it curious that despite there being six days of the week, a special show at midnight on Sunday will invariably draw a capacity house. Why is it? The only reason one can give is that it is because it is different, and usually because the picture is a little above the ordinary, or at least it appears that way. Possibly if it was included in the ordinary run of the week, it would not have such an appeal. But then human nature is that way, always wanting something different. That is why stores which continually strive to change their displays and window decorations attract the most customers.

TURNING FROM pictures to stores, it appears from statistics that chain stores are no more than holding their own, and that they are finding the competition of efficient independent retailers as difficult to combat as competition among themselves. It goes to prove that individuality still counts in business, that people will trade where they are given personal service and that price alone is not the beginning and ending of everything connected with their buying.

DWELLINGS are at a premium. Vacant property is being bought and houses are in course of construction which will make a substantial addition to the assessment roll. With this will also increase the necessity for public improvements in the way of sidewalks and surfaced roads to abate the dust nuisance. Now is the time for the council to plan these improvements, for there is no better way to spend taxpayers' money than to provide benefits that all may enjoy.

Bishop Carroll Confirmed 48 Candidates

On Sunday Rt. Rev. F. P. Carroll, bishop of the Roman Catholic diocese of Calgary, visited St. Luke's, Blairmore, and Holy Ghost church, Coleman, for the purpose of confirming children of both parishes. In Coleman 48 were confirmed. The bishop was accompanied by his secretary, Rev. Father Lyons, who officiated at the morning service in Coleman, while the bishop addressed the candidates at the confirmation service in the afternoon. They left by car on Sunday evening for other points in the Diocese.

Express and Freight Shipments

Fast freight railway service and delivery to your door is also a service which gets goods to you very quickly. Order by rail for efficient service.

Local News

Mr and Mrs J. Shields motored to Creston for the week end.

A. M. Morrison was a visitor in Calgary over the week end.

Mrs. D. Young and children, of Lethbridge, were the guests of Mrs. John Burrell during the holiday.

It has been announced from Edmonton that gift nights in theatres are to be banned forthwith.

Mrs. J. Hirst, who has been visiting her sister, Mrs. J. Ashbridge, at Maroon, is expected to return on Friday, after a three weeks visit.

The Coleman Band gave a pleasing concert at Crows Nest lake on Sunday evening. Many Pass residents motored out to hear it.

J. Wilson, weighman at International mine, is planning on going to the Vimy Ridge war memorial dedication in July.

Mr. and Mrs. A. Irvine and daughter, accompanied by Mr. and Mrs. Wm. Chapman visited in Lethbridge on Saturday.

Mr. and Mrs. John Brennen and children, formerly of Coleman and now of Ensign, Alta., were the guests of Mrs. J. Morrison of Coalhurst on Sunday.

Mr. and Mrs. W. L. Rippon, Miss E. Haysom and Lorraine motored to Macleod on Saturday. Mr. Rippon went on to Red Deer to the Bankers annual golf tournament.

Mrs. W. R. Burrows returned on Sunday from two weeks spent with her daughter, Mrs. Robt. Thompson of Salmc, B. C., whom she expects here on a visit during June. While in Nelson, on her return, she met Mrs. George LeRoy, formerly Miss Midge Halliwell, who was in on a shopping trip from the gold mining town of Ymir, south of Nelson.

An accident occurred in the Frank slide on Monday, when a car driven by Andy Gardiner met a Lethbridge Studebaker. The R. C. M. P. were notified and it was decided each driver was equally to blame and each will pay for the damages to his own car.

Missing a train brought front page publicity to "Jimmy" Cullen, of the Bank of Commerce staff. Completing two weeks vacation in Calgary, he arrived at the railway station to find his train had left. Determined to be at his post here next morning, he secured the services of Jack Palmer, former Lethbridge pilot, and hopping off over an hour after the train had left Calgary, they overtook it at Nanton, where a landing was made just in time to enable him to proceed on the remainder of the journey by train. Just another of life's interesting experiences is "Jimmy's" view of the incident.

Wm. Bell and daughter Margaret motored to Lethbridge on Thursday.

Harry Harris purchased a new Francis Barnett motorcycle from Blairmore Motors last week.

The Misses Fiorina DeCocco and Elsie Fontana were home from Kimberley over the week end.

Mrs. A. Dow, who left sometime ago for Vancouver, is now visiting in Seattle.

Mrs. J. Webster, of Shaughnessy, is the guest of Mr. and Mrs. Robt. Gillies this week.

Coleman football club will travel to Fernie on Sunday where they will oppose Kimberley. Game starts at 6:30 p.m.

Mr. and Mrs. V. Wallace and Miss Mercer of Calgary were the guests of Mr. and Mrs. Robt. Gillies over the week-end.

Mr. C. J. Tompkins, Sun Life representative, Blairmore, was a business visitor to Calgary for two or three days.

Mrs. L. L. Morgan, District Commissioner of the Girl Guides, attended the Dominion convention in Edmonton last week.

Friends of Mrs. Scott Campbell will be pleased to know that she is now rapidly recovering from a recent illness.

Leslie Emmerson received a severe electric shock while at work on Tuesday afternoon. It stunned him for a few minutes, and he stated he felt as if his back had been broken. After a night's rest he was able to return to work next day.

Town Council
Has Lengthy
Discussion

Unsanitary Conditions of Certain Places Reported and Action Is Urged to Remedy Same. Building Regulations Under Discussion.

At the council meeting on Tuesday evening considerable discussion ensued over the reports of the provincial health inspector, J. Butterfield, and Dr. Keith McLean, medical health officer for the town.

There are some points in the provincial health inspector's report which are very pertinent on local conditions. One such was that relating to the peddling of meat. The report states:

It was reported to me during my inspection that some persons peddle meats from door to door in vehicles that are not suitable for the purpose. These persons may or may not be farmers selling their own products of the farm, but however the case may be, the meats must be sold under good sanitary conditions. I fail to see how meat could be sold under good sanitary conditions during the summer months from an open vehicle with no means of refrigeration. The local board of health may act as it seems fit.

Report on Dairies
Over 20 dairy premises were visited within and outside the town limits. All those premises situated within the town are more or less unsatisfactory and contravene the dairy regulations. The barns are poor, usually without proper ventilation, poorly lighted and very often have poor floors. In every case the barns, milkhouse and other buildings, including toilet, are all crowded onto a 100x30 foot lot. Therefore regulation 525 under the Public Health Act is violated.

The local board of health would be well advised to eliminate all such peddlers of milk by refusing to issue certificates of registration and refusing a town license for sale within the town.

The report contains a list of those who may be granted certificates, and eleven names to whom certificates should not be granted, which are on file in the report. It also states that the local board of health should arrange a tuberculin test of all milk cows as early as possible.

Refuse Disposal
Concerning this, the report states: There are many cow and horse barns about the town and manure piles constitute a large part of town refuse. The manure is now being used on gardens. One such owner, whose premises are situated near the hospital, was ordered to remove a manure pile immediately.

Report on Restaurants
Speaking on cafes and restaurants, the report states: The B.C. Cafe, Coleman Cafe, White Lunch and Nilo's Cafe were in a clean condition. The White Lunch proprietor was ordered to clean the back yard and remove meat from an improvised refrigerator. Ice cream sold in the above cafes is shipped from creameries at Lethbridge and Calgary.

Local Health Officer Reports
Reporting on one place which has been a source of complaints on various occasions, Coleman's health officer states: The barns and manure piles on these premises are on a higher level than the dwelling. This, of course, means that after rains and spring floods the waste matter is washed towards the dwellings, causing a very unsanitary condition. This undoubtedly collects a great number of flies and from a public health point of view is inadequate, considering the thick population in this particular area.

Local improvements were discussed, and a letter was read requesting that Sixth street be included in sidewalks program if any are constructed this year, similar to those on Second street and West Coleman.

Building regulations also came under consideration. An inspector will be appointed to inspect all electrical installations and repairs, to see they conform with the insurance regulations. Unskilled work may result in serious loss by fire, therefore the council decided to appoint a qualified man to pass on electrical work.

The lanes in the business area are reported to be among the worst in town, and all property owners will be advised to connect them up with proper sanitary facilities.

The Big Interests

IN LIFE INSURANCE ARE THE POLICYHOLDERS AND BENEFICIARIES

In Life Insurance the "Big Interests" are the millions of Canadian policyholders and beneficiaries—men, women and children who share in the protection made possible by individual thrift and foresight.

The concern of the Life Insurance Companies in Canada is to safeguard these policyholders and beneficiaries. Their accumulated savings, amounting to more than two billion dollars, must be invested wisely to obtain the greatest yield consistent with safety. Every promise made in Life Insurance policies must be fulfilled completely and promptly.

Canadian policyholders may feel justly proud of the wise and careful administration of their trust funds. Even in the darkest days of the depression, Life Insurance Companies met every obligation promptly and fully—bringing financial security to thousands of Canadian homes.

There is added satisfaction in the fact that the investment of Life Insurance funds has helped to build Canadian homes, schools and hospitals—and develop agriculture, industries and public utilities. Thus, the whole Dominion benefits from Life Insurance.

In the future, as in the past, Canadian policyholders and beneficiaries must always be the "Big Interests" of Life Insurance.

Footballers Open Season

Blairmore Trims Coleman Footballers in Opening Game — D'Ercole Was Star Player With Three Goals.

(Continued from Page 1)
 Senior football started the season with a match against Blairmore last Saturday, when the visitors set Coleman back to the tune of a 5-3 score, somewhat to the surprise of the locals, who had not regarded the neighboring team as being strong contenders.

Coleman's full backs did not give the same brand of defence that the Blairmore players did, with the result that John McDonald's usually brilliant work as goalkeeper was to a great extent nullified. Goals were scored for Blairmore by Parker, Makin and D'Ercole was the star performer by giving three goals to his team. Anderson, Joe Ball and Hastings each scored for Coleman.

The lineup for Blairmore: Stewart, Kemp, Evans, Blas, Dowson, Litherland, Makin, Richards, D'Ercole, Parker, Frank Vejpvea, Coleman, McDonald, R. Jackson, J. Fraser, W. Fraser, J. Anderson, Hastings, W. Anderson, Lonis Moore, Gardiner, Ball, Hulme. Referee: J. Moore.

Local News

The selections played by the band on Monday morning at the post office were appreciated.

It is reported that Mr. and Mrs. Neil will move to Vancouver Island or the Pacific coast, where it is Mr. Neil's intention to purchase a fruit ranch.

Bertrand Russell claims that "Patriotism is the willingness to kill and be killed for trivial reasons." The reasons would not be so trivial if it were understood that the diplomats who failed to prevent a war would be the first to go over the top.

Ten owners of cows were summoned to appear before the justice of the peace for contravention of the town by-laws. One owner of East Coleman was fined \$2.50 and costs, a total of \$7.50. Results of the others were not known at time of going to press.

Mr. Frank Aboussafy, of Wetskiwin, who has been in business with his father there for many years, recently completed the purchase of The Men's Store from Mr. George Neil, who for over ten years has conducted this business. The new proprietor took over on Tuesday, and as soon as accommodation can be secured, will move his wife and family here.

Coleman Baseball Team Wins at Cowley Sports

Under the masterful coaching of Frank Creegan, Coleman baseball club brushed aside all opposition at the Cowley sports to win the tournament and first prize of \$60. With Yagos on the mound in the first game and the team playing air-tight ball, they eliminated Blairmore 4-2.

Opposing Hillcrest in the final, Kane was on the mound for the locals, where he kept control over the opposing batsmen till the ninth to gain a 4-3 lead. He weakened in the ninth to walk three men and was replaced by Bill Field who retired the side. Pete Brown played the hero's role as he banded out a homer with one on.

An intermediate baseball league was formed this week comprising all towns, in the Pass. League games have already started and the locals will be seen in action in the near future. Angelo Gentile is manager with Frank Creegan taking over the coaching duties.

Hillcrest Notes

The local juveniles engaged in a slugging bee with the Bellevue squad here Sunday, May 17, and came out on top by an 8-5 score. Hillcrest came from behind in the fifth inning when the score was 4-0 for Bellevue and pulled the game out of the fire with their lusty swatting Batteries.

Hillcrest—Blanchini and Robinson.

Bellevue—Maniogo and Fidenato. In the return game at Bellevue Tuesday, May 19, Hillcrest again emerged victorious, this time by a 9-7 score. After leading 7-0 at the end of the fifth Hillcrest nearly lost the lead in the sixth when Bellevue brought in six runs as a result of errors on the part of Hillcrest. From then on Hillcrest were never in danger.

Hillcrest—Davis, Blanchini, E. Wojtyla and Robinson.

Bellevue—Mareolin and Fidenato. The local juveniles will welcome games with other Pass teams. Any team wishing a game phone Hillcrest hotel.

Local News

Legion Carnival opens Saturday evening.

Miss Jessie Tulloch was visiting in Lethbridge this week, the guest of her parents.

Jack Derlyshire was the lucky winner of a \$400 prize in the Mutual Transportation sweepstakes this month.

Miss Margaret McDonald will leave Saturday for Victoria, B. C. where she will enter the Jubilee hospital for six months as an interne distitian.

Rev. N. W. Whitmore of Pincher Creek will take charge of the United church at Olds after June 30, having been in his present charge for six years.

Many journeyed by car to Waterton Lakes, Fernie and other places for the holiday, which was favored by the finest weather seen for many years on Victoria Day.

The Misses Kathleen and Mary Hoyle and Joanna Flynn were joint hostesses at a party held on Monday evening. The girls were being tested for their Ranger hostess badge.

Mr. James Allan attended the convention of Associated Grocers in Calgary, at which a group photograph was taken of the 93 members of this progressive organization, which through co operative buying has benefited all customers dealing with them.

40 Men Leave Airport Camp

On Tuesday 40 men left by train for Moose Jaw to engage in railroad work under the plan whereby relief camp workers are employed in construction and maintenance. About 60 men are left in camp, which it is expected will be filled to normal strength, about 115 men. Major

Hornby is in charge, and reports progress is being made, and the field is now ready to be used for emergency landings. 3,000 feet of runway will be completed under the projected scheme. Increased equipment, including a caterpillar tractor, has facilitated the work.

A juvenile offender who was re-

cently placed on probation by J. Ford, J. P., for stealing from a local store, was apprehended on Tuesday afternoon by Constable Antle, on request of the Fernie police, for having stolen a bicycle from that town, which he is alleged to have sold in Coleman. He was taken to Fernie to answer the charge.

"I thought I couldn't own a Hudson . . . until I asked the price"

"Imagine a car like this . . . at a price as low as this"

MOST people guess the price of a Hudson Eight far higher than it really is. Many of our own owners, right here in town, have told us they didn't think they could afford a car so fine . . . until they learned how little it cost to buy and run.

It's a natural mistake to make. With its new, advanced styling, this 1936 Hudson looks like a high priced car. In wheelbase . . . all-over size . . . room for heads, shoulders, legs . . . it is actually bigger than Eights costing hundreds of dollars more.

Hudson power sounds like "big money," too . . . 113 or 124 horsepower. But the truth is, you can't get over 105 horsepower in any other Eight priced \$200 higher. Nor match Hudson's smoothness at any price!

Hudson's low price is even more surprising when you see sworn owner statements reporting gas economy equal to most small Sixes. And total mileages of 150,000, 200,000 and up.

Come in and take a "Discovery Drive" today, in a Hudson Eight. Compare Eights . . . compare prices . . . and you, too, will discover how easily you can own a Hudson.

A. M. MORRISON, Hudson Dealer

FINE CUT

WORLD HAPPENINGS BRIEFLY TOLD

Death in Quebec of Senator Emile Fortin lowered the Conservative majority in the upper house to 27.

Montreal recently celebrated its 294th birthday with the laying of wreaths at the foot of Maisonneuve's monument on Place d'Armes square.

German editors henceforth must prove their "Aryan" ancestors and that of their wives back to the year 1800, according to new press regulations.

Officers and members of the crew of the German cruiser Emden, while in port at Montreal, paid tribute to Canada's dead soldiers and sailors in the Mount Royal and Cote des Neiges cemeteries.

An inspection of Emperor Haile Selassie's villa at Vevey, Switzerland by Wolde Mariam, Ethiopia's delegate to Geneva, strengthened reports the fallen emperor would soon make Vevey his retreat.

Among those receiving degrees at the closing exercises of Mount Allison University, Truro, N.S., were: Bachelor of Arts, Miss Helen Winfield Baines, Battledore, Sask.; and Bachelor of Science, Frederick White Matthews, Lenox, Sask.

The Edmonton Bulletin in a news page story said that Hon. Philippe Roy, formerly of Edmonton and now Canadian commissioner to France, may be the next Lieutenant-Governor of Alberta. The paper quoted "well-authenticated sources."

Representatives of all the public and high school teachers in Canada will meet in Saskatoon on Aug. 3, 4, 5, 6 and 7 for the annual conference of the Canadian Teachers' Federation. This announcement was made by J. H. Sturdy, secretary of the Saskatchewan Teachers' group.

The Red Wolf Of The Forest

Effort Is Being Made This Year To Lessen Loss From Forest Fires

The most determined efforts to keep Canada as clear as possible of forest fires in 1936 have been instituted in all parts of the Dominion. Adequate supplies of fire pumps, canoes, railway speeders, have equipped the fire ranger forces, and all is being made ready for the two unknown events: what the weather will be like and what the public will do. The latter element represents the 91 per cent. of the danger of forest fires. Men with lighted matches and tobacco, settlers clearing their land, campers and their cooking fires—such innocent-looking human actions annually create a deadly harvest of ruined forests, dried up waterways and homeless families.

Nearly five hundred rangers on the "line of fire" across Canada are appealing to the public to join hands with them as protectors of the forests and streams during the present year. In many districts this friendly union of the rangers and those who travel in the woods for work or pleasure has succeeded in virtually outlawing the fire fiend and has kept the woods green and growing, without a single blemish, for many years past.

Subsidized by Australia, an expedition will investigate marine life of the Great Barrier Reef, which extends 1,200 miles along the coast of Queensland.

For coaching rowing crews an Englishman has invented a megaphone which uses electricity to amplify words spoken into its mouth-piece.

People went to extremes in old days but extremes were not so extreme then as they now are.

Morning glories and potatoes are close kin.

A Great Accomplishment

Arms American "Boy Wonder" Wins Top-Dancing Contest

Lupe Barate, arms "boy wonder" of McAllen, Tex., won first prize in a tap-dancing contest in San Antonio, adding another feat to his list of accomplishments.

Deprived of his arms when struck by a train at McAllen 18 years ago, Lupe has learned to do nearly everything for himself except to button his shirt and comb his hair.

He has rescued four persons from drowning and is considered an excellent swimmer and wrestler.

Oldest And Best Razor

Harry A. Dickson of Miles City, Mont., claims to have the most ancient and best razor in America. He has its pedigree and says it is 146 years old, that it was made in Sheffield, England, in 1790, was brought to this continent by Luther Bybee in 1792, and was handed down by him to his grandson and by the latter to his great grandson, Luther Bybee III.

Moose River Mine

Work Commenced In Draining Water From 141-Foot Level

Pipe lines laid down in the old "root-bog" shaft of the coked-in Moose River mine are now draining the water from the 141-foot level from which Dr. D. E. Robertson and Alfred Scadding were rescued by Nova Scotia miners.

With Deputy Minister of Mines Norman McKenzie, Felix Henderson, mine foreman, descended through the Reynolds shaft of escape. Henderson said he hoped to operate the mine again soon. The Reynolds shaft entrance had been boarded up to prevent persons from entering the hazardous tunnel dug by draegmen.

At the 141-foot level where Dr. Robertson, Magill and Scadding sat on a little platform awaiting rescue, they found six feet of water.

"The rat hole is the same as when it was dug. It hasn't fallen in much," Henderson said.

Unique Cure For Fatigue

Marconi Uses Short-Wave Wireless Waves To Revive Energy

Sensor Marconi has revealed his cure for tiredness—the application of short-wave wireless rays.

In an interview at Rome he said: "Short waves applied to the human body do a lot of good. Safe and effective instruments for applying them have been invented and I apply them to myself when I am tired by my work."

"The rays of the short waves remove every feeling of fatigue from me and revivify my energies. I find that the application of Marconitherapy does me a lot of good."

A Perfect Miniature

A perfect miniature violin, weighing less than two ounces, has been completed by Max Lang of Haymer, Sask., who makes a hobby of carving the tiny instruments. The model, complete with case, weighs 145 grains by itself, and in the case one and three-quarter ounces.

England has a movement to abolish auto speed limits at night.

Catapulting Lifeboat

The Inventor Demonstrates The New Automatic Safety Appliance

The successful 30-foot "flight" of a new automatic safety lifeboat so impressed the inventor, Menotti Nanni, lately, that he predicted the next test leap would be from the George Washington bridge. A little later, he allowed that "the top deck of the largest steamship" would provide sufficient height.

Nanni predicted that the catapulting lifeboat would make ship's davits obsolete. He said it eliminated the danger of escaping from a ship in case of fire, explosion, "or any other reason why anybody should want to leave a ship in a hurry."

A successful demonstration took place at New York recently. Nanni's boat was an ordinary standard broad-beamed lifeboat. It was supported from the ground by two long rods about three inches in diameter, which fitted into two round chambers in the hull.

One end of the rods was imbedded in a metal turret. The boat was slid onto the other end of the rods so that the rods filled the chambers from stern to bow. A tank containing compressed carbon dioxide, which supplied the motive power, was built into the bottom of the boat. Near the bow was a lever for releasing the gas.

The gas when released immediately filled the chambers, forcing the boat off the rods and catapulting it into the water.

Applications For Pensions

Says Weakness In Administration Has Been Corrected

Mr. Justice Pavvett G. Taylor, acting chairman of the Canadian pension commission, told the House of Commons committee on old-age pensioners' problems, that on May 1, this year, there were 2,600 applications for pension still to be heard by the travelling quorums. A year ago the number was 4,500.

Weakness in pension administration had been corrected in the past two years, and he had not seen the force of keeping any diary with "problem cases," said the speaker.

Four extra commissions had been employed a year ago, and it was likely they would be required for another year. He himself dealt only with "problem cases," said Mr. Justice Taylor.

He did not favor the policy of travelling quorums giving immediate decisions.

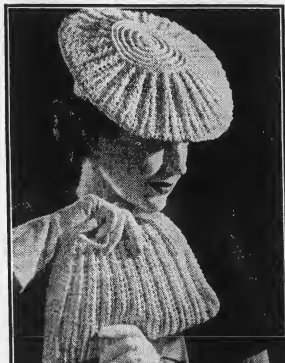

Some questions were directed to him in connection with assessment of pension. This was made by the district medical examiner and forwarded to the medical adviser in Ottawa. Where these two differed, the matter went to a board of two commissioners for decision. The travelling quorums had authority to decide rates of assessment, said Mr. Justice Taylor.

Exclusively For Horses

There is a parking space in Bothwell, Ont., from which cars are barred. The town council leased a shady plot of ground just off Main street and announced it would be a parking place exclusively for the use of horses and buggies. Flivvers, it warned, were strictly prohibited.

Railway earnings in France are 11 per cent. lower than a year ago.

Simple Crochet--And You're All "Set"

PATTERN 5597

You'll be all "set" for Summer good times when you've crocheted yourself this smartly matched beret and bag. Send for the pattern and find how easy they are to do! Those decorative ribs are just a simple puff stitch with open stitch between, and the gumpie or yarn is used, whichever you prefer.

In pattern 5597 you will find complete instructions for making the set shown; an illustration of it, and all of the stitches needed; material requirements.

To obtain this pattern send 20 cents in stamps or coin (coin preferred) to Household Arts Dept., Winnipeg Newsprint Union, 176 McDermott Ave., Winnipeg.

Largest Producer Of Wheat

Soviet Russia Replaces United States In Grain Production

The imperial economic committee announced in London that Soviet Russia has replaced the United States as the largest producer of wheat, oats and barley. The announcement was based on the grain crop report for the period of 1928-35.

The world carryover of wheat on August 1, 1936, probably will be reduced to 17,000,000 tons—a drop of nearly 50 per cent. from the 1934 figure of 31,000,000 tons, the report stated. Reduced acreage and drought were credited with responsibility for the drop.

The price of wheat in 1935 reached its highest level since 1930, due to expectation of a gradual liquidation of the huge 1934 carryover, the committee found.

The report, chiefly a statistical analysis of the world production of wheat, barley, oats, corn and rice, said in 1934 the area of production for these crops was lower than the average from 1928-1933.

The United States was the chief sufferer in the general decline of trade in these five crops and wheat flour. It exported 5,646,000 tons of the six products in 1928 and only 547,000 tons in 1935, the report stated.

Kidnap Investigation

Says Secret Service Still Working On Lindbergh Case

The New York Sun says that "an organization of investigators and private detectives so secret its members use numerical designations, is actively continuing the investigation of the Lindbergh kidnaping case with the knowledge, if not the active support of Governor Hoffman of New Jersey."

"The chief of the operatives," the Sun said, "known as 'K-4' in reports and telephone conversations, according to a former associate, is Harold C. Keyes," a former agent of the United States secret service.

"It was K-4 who led a party of investigators and a deep sea diver to the shores of Centre pond, near Becket, Mass., on April 1." The Sun said, two days before Bruno Richard Hauptmann was executed for the slaying of the Lindbergh baby.

The object of the search, the Sun said, was "a little black bag" which a resident said was carried by Dr. John F. Condon, the "doctor" of the Lindbergh case, when he stayed at a cottage at the pond for some time in May, 1932.

Flax Crop Heavy

Approximately 6,200 acres of flax were grown for fibre purposes in Canada during 1935. From this area the production was: seed 37,200 bushels; fibre 90,000 pounds, and tow 5,850 tons. The total value of the production of seed, fibre and tow in 1935 is estimated by the Dominion Experimental Farms at \$321,250.

Frogs that climb trees, burrow, and try to fly inhabit Mexican tropical forests.

The eight muscles of the human jaw exercise a force of nearly a quarter ton.

SUNDAY SCHOOL LESSON

MAY 31

THE LAST SUPPER

Golden text: "This do in remembrance of me." Luke 22:19.
Lesson: Luke 22:1-38.
Devotional reading: I. Corinthians 11:23-29.

Explanations And Comments

At the Paschal Feast, Luke 22:14-18. "The Paschal Feast was a family feast, at which the heads of the family presided. Here, then, was something strange, something different; a group of men all away from their own homes. They were guests in the house of another man, and that man was not presiding; he had lent the room. Yet this was a family gathering, but it was a new family! Jesus was the Head. He took charge. He presided, as the father of the household always presided at the Paschal feast. Here was a new kind of family. Away back in his ministry he had said one day, 'Who is my mother, who are my brethren, and my sisters?' They that do the will of God." Here they were, that little group with him, the new family." (G. Campbell Morgan)

When Jesus and his disciples were seated for the meal, Jesus spoke to them with great intensity of feeling, saying, "With desire I have desired to eat this Passover with you before I suffer." We can readily understand his special wish to partake of that meal with his disciples. The occasion pointed back to a most memorable event which reminded them of the beginning of their life as the people of God, and in the institution at that time of the Lord's Supper he would link old and new together.

And he received a cup and gave thanks. "During the Passover feast the cup was circulated four times, each time having a symbolic value. The last cup was always the cup of joy. That is the only one to which I refer."

For I say unto you, I shall not eat it, until it is fulfilled in the Kingdom of God. "This word of Jesus meant that at that time with his disciples, after the resurrection, he would be present with them in spirit every time they ate and drank 'in remembrance'."

The institution of the New Feast, the Lord's Supper, Luke 22:19, 20. Then Jesus took bread, and when he had given thanks he broke it, and gave to them, saying, 'This is my body which is given for you; this do in remembrance of me.' By this he recalled me to mind even as the partaking of the Paschal feast recalled to mind their deliverance from Egyptian bondage.

And the cup in like manner after supper, saying, 'This cup is the new covenant in my blood, even the which is poured out for you. A sacrifice was usually offered in ratification of a contract. The blood of the old and the new, there is clearly a reference to Jeremiah 31:31 as well as to Exodus 24:8.' (A. E. Garvie)

Vimy Pilgrimage

Canadian Legionnaires To Be Guests Of French Government

Several thousand Canadian legionnaires, planning to make a pilgrimage of Vimy Ridge in July for the unveiling of Canada's national war memorial, were convinced there's no such thing as 50,000,000 Frenchmen being wrong.

Their conviction followed the invitation of the French Government to the Canadians to be guests of the government for five days after the unveiling of the memorial. It was accepted by Brig-Gen. Alex Ross, Dominion President of the Canadian Legion.

A communication received by Dr. O. D. Skelton, Under Secretary of State for External Affairs, said the French Government had offered to take charge of the pilgrims from Saturday, Aug. 1, until Thursday, Aug. 6.

Itinerary of the pilgrimage calls for the Canadians being in England Aug. 1, but the French Government is ready to transport them back to France. About 6,000 Canadians will go to Vimy and headquarters now seeks to learn how many will take advantage of the French offer.

Great Britain now has 90,000 persons with incomes exceeding \$10,000 a year.

"I wish I hadn't bought that CHEAP MUSTARD!"

"I am surprised at you. You know KEEN'S is the best."

"Well, I thought when I was putting up my pickles I could save some money by buying cheap mustard. But never again! Cheap mustard has not the flavour, the strength nor the keeping quality. I've learnt my lesson. It pays to buy the best—KEEN'S D.S.F. MUSTARD."

Made from seed grown in the Fens of England. Shells or hulls are removed and only the inner part of the seed is used. Superior grinding ensures the full mustard flavour.

In original tins for as little as 10¢

KEEN'S D.S.F. Mustard

COLMAN-KEEN (CANADA) LIMITED
1000 Avenue Street, Montreal, P.Q.

YOUR GARDEN

A brown or green stained window-box overflowing with gaily blooming flowers is within the range of almost every person. Here, lack of ground space does not matter. This sort of gardening is highly intensive with many more plants to the square foot than would be grown under ordinary conditions. This means that very rich soil should be used and in addition a fairly frequent application of chemical fertilizer during the season. The box must be of a size that, at least seven inches of soil being available. Being exposed on all sides to drying winds thorough watering once a day is advised. The window-box should be as long as the window and should be supported and arranged so that the top of it is almost flush with the window-sill. There must be holes in the bottom to provide drainage, and also a layer of gravel, cinders, broken crockery or similar material for the same purpose. In addition to a supply of well-rotted manure put in this in next, and finish with a top dressing of rich soil. The box, which should be at least seven inches deep and from eight to ten inches wide at the top, should be filled to within half an inch of the top. Along the front trailing Nasturtiums, German Ivy, Lobelia, Alyssum and similar plants are best for this purpose. Ageratum, Begonias, Ferns, Geraniums and any other plants especially recommended for window-boxes further back. Shelter from the sun for a day or two should be provided until the plants are established. The same treatment and planting materials will be used with hanging pots.

Tender vegetables are those which have been grown quickly. Especially with such things as radish, carrots and beets, is slow growth disastrous as the roots become woody and filled with objectionable fibres. But this rule also applies to those things used for salads. On this account experts advise pushing growth with frequent watering which in addition to checking weeds also conserves moisture. Cultivation alone will often keep the vegetables going through a dry spell but, of course, a few pails of water or an hour or two with the hose at this time will tend further aid. Where the supply of water is not as convenient as it might be, it is a good plan, in laying out the garden, to plant these things most in need of extra moisture, such as radish, lettuce and celery, closest to the pump. Fertilizer is another way of hurrying growth and therefore, assuring vegetables of the highest quality.

Teacher: "Your son is very backward in geography."
Father: "That does not matter. We have no money for travelling."

Dogs can't talk, but you always know what they mean. It is different with some men.

World consumption of wood annually is 50 per cent. more than the quantity grown. 2152

Appel's

Para-Sani

You'll save its modest cost before half the roll is used. That's because this heavy waxed paper keeps left-overs fresh, moist and flavorful. Ask for Appel's Para-Sani because of its exclusive knife edge cutter on the box.

Polish Society Dedicates Flag

(Continued from Page 1)

Polish.

A program of national songs was sung by the boys and girls dressed in Polish national costumes. The costumes attracted much attention by their beautiful designs, which were made locally.

A brief address was given by H. T. Halliwell, who referred to the significance of the day, in that the Polish Society had chosen Victoria Day, a national holiday in Canada, to do honor to their own society. Reference was made to the life of that great soldier and statesman, Marshal Pilsudski, who had taken a leading part in restoring to Poland its former status following the Great War.

The program was brought to a close by the singing of the national anthem in the Polish and English languages. The choruses by the children were directed by Mr. Michael Opulski. Executive officers for the society are: Ignatius Maciejewski, president; Frank Tarabula, secretary.

Invitations had been extended by the society to various townspeople, and guests present were: Mayor Pattinson, Dr. and Mrs. K. McLean, Mr. and Mrs. H. T. Halliwell, Mrs. A. M. Morrison, while others sent regrets that prior engagements prevented their coming.

Refreshments were served at the close of the program, and several group photographs were taken. The day concluded with a grand dance in the evening.

Program For Ceremony of Dedication of Flag to the Polish Society

1. Opening address by Frank Tarabula, chairman.
2. "O Canada," and "Jeszcze," (Polish Hymn) by children.
3. Address by Mayor G. Pattinson.
4. Address by Mr. John Sikora, general secretary of Federation of Polish Societies.
5. Recitation—"Our Flag," by Mr. J. Kryczka.
6. Address by H. T. Halliwell.
7. Violin solo, "Idyl," by John Pietraszko.
8. Address by Mr. A. Ciolek, of Bellevue.
9. Recitation—"Polish Child," by Mr. T. Kryczka.
10. "Our Fatherland," by Mr. H. Suplad.
11. Czesz Polnkiej Ziemi (Polish hymn) and the National Anthem.

"The love of country produces good manners and good manners, love of country. The less we satisfy our individual passions, the more we leave to our general."—Montesquieu.

In Memoriam.

IN LOVING MEMORY of a dear husband and father, killed in McMillivray mine, May 31, 1932. A distant grave is a touching thing.

Where loving hands no flowers can bring; But God in His almighty care Will guard our loved one sleeping there.

—Mrs. David Gardiner and Family, Cowdenbeath, Fifeshire.

IN MEMORIAM

IN LOVING MEMORY of William Wilson, killed May 28th, 1929. —Ever remembered by Mr. and Mrs. Eph Hill and Mrs. Ernest Hill.

IN MEMORIAM

IN LOVING MEMORY of William Wilson, killed at the International Mine, May 28th, 1929. "God grant him eternal rest." —Remembered by Mrs. S. Penn, and daughter, Alma Wilson

IN MEMORIAM

In Loving Memory of Tony Nicholas, who was killed at Lundbreck Falls on May 26, 1929.

Dear Tony, you are not forgotten, Though on earth you are no more; Still in memory you are with us, As you always were before.

Sadly missed by his loving parents, brother and sisters.
